

Thermostop

Il thermostop in polipropilene è l'elemento fondamentale per ridurre notevolmente i ponti termici tra l'esterno e l'interno di un edificio.

Thermostop

Polypropylene thermostop is the ideal element that reduce thermal bridges between internal and external of a building.

Titolo/title: THS

Materiale/material: Polipropilene

Data/date: 01/06/23

Altezza/height: 62 mm (Ths1)/ 60 mm (Ths2)

Base/base: 88 mm (Ths1)/ 80 mm (Ths2)

Spessoer/thickness: 5 mm
